

Claims

[c1] What is claimed is:

1. A headband comprising;

a headband comprising a central part having two ends
and

headband shanks having curved earpieces, a hinge that
swingably couples each of said shanks to the central
surface associated with the wearer's head;

wherein each said hinge means comprising a living hinge
to

take said end sections to be folded toward said midsec-
tion.

[c2] 2. The foldable headband as claimed in 1 further com-
prises a

curved end piece on said end sections.

[c3] 3. The foldable headband as claimed in claim 2 wherein
said

curved end sections comprise a rounded end for comfort
around ear.
